

College Placement Dashboard

Total Students	10,000
Placement Rate	16.6%
Average CGPA	7.53
Average Projects Completed	2.51

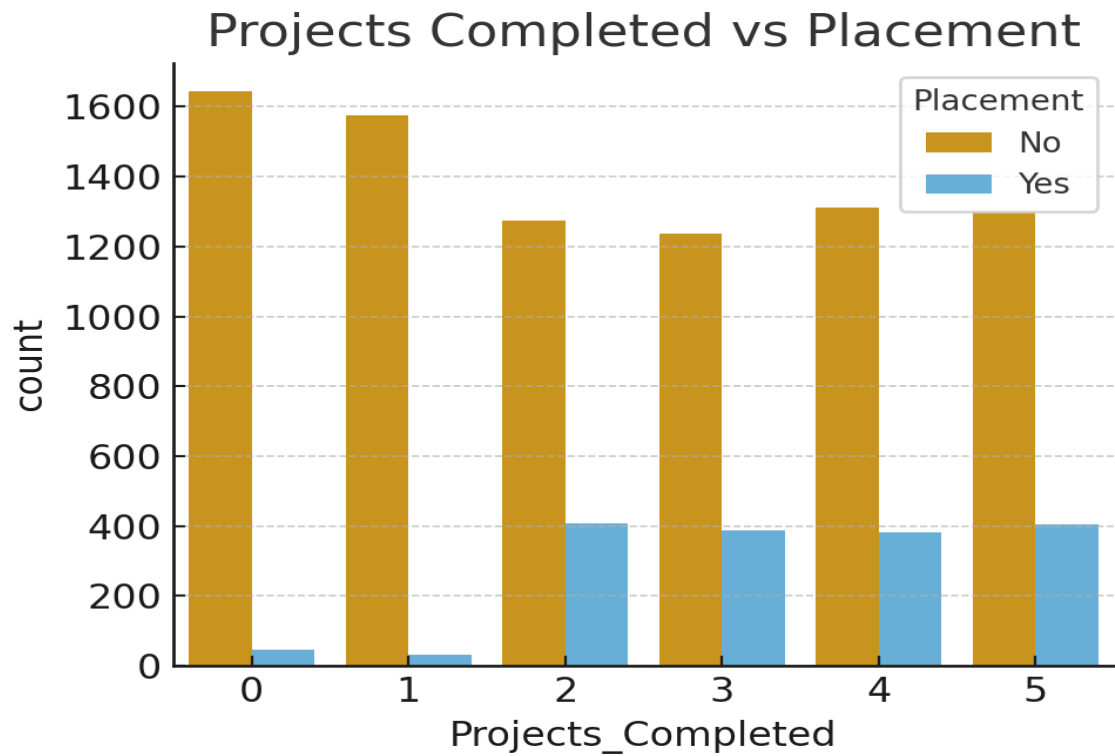

Placement vs Internship

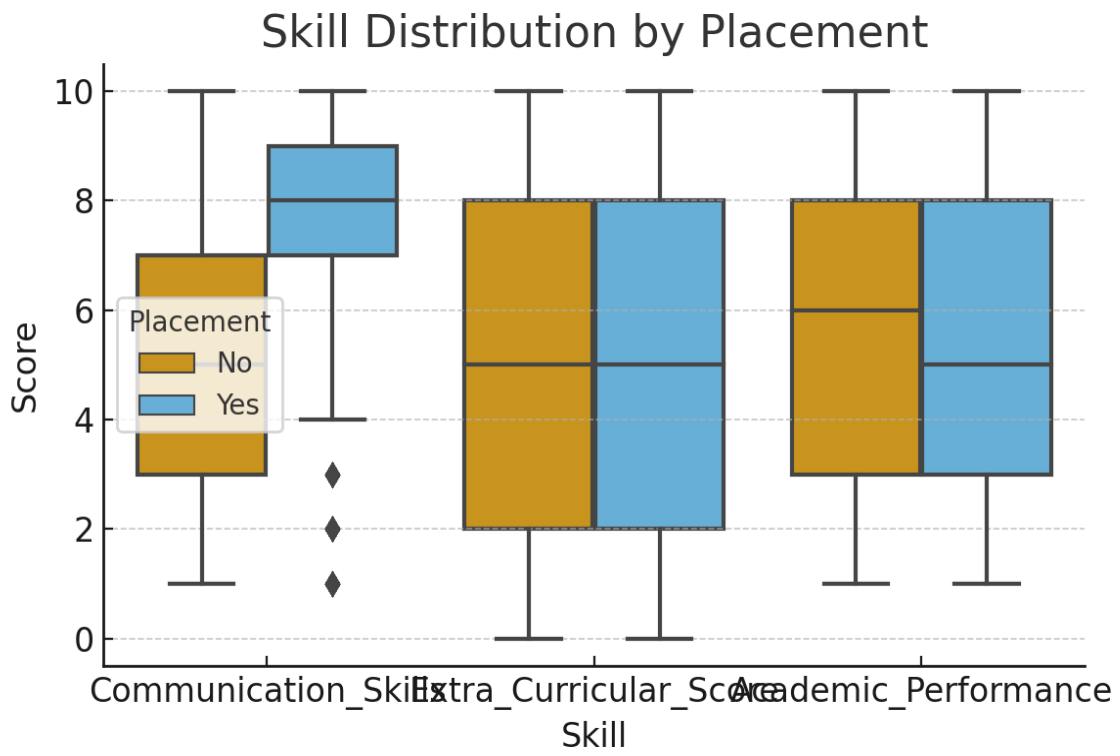

CGPA Distribution by Placement

Projects Completed vs Placement

Skills Distribution by Placement

Stakeholder Notes & Recommendations

- Placement rate correlates strongly with CGPA and internship experience. Consider expanding internship partnerships to improve placement outcomes.
- Students completing more projects generally show higher placement rates. Encourage project-based learning and capstone projects.
- Communication skills and extracurricular involvement are associated with higher placement; provide targeted soft-skills and extracurricular opportunities.
- Use the dashboard filters to identify lower-performing cohorts (by CGPA, IQ, or lack of internships) and design focused interventions.
- Recommended action items: (1) Increase industry internships, (2) Integrate project-based assessments, (3) Run communication & interview preparation workshops.
